

Arjun Menon

Backend Software Engineer | Kochi, Kerala | arjun.menon.dev@example.com | +91 98765 43210 | github.com/arjunmenon

SUMMARY

Backend software engineer with 3+ years of experience building REST APIs and backend services with Python. Experienced with FastAPI, PostgreSQL, Docker, Redis, automated testing, and third-party API integrations. Interested in building reliable services, improving API performance, and writing maintainable backend code.

EXPERIENCE

Backend Software Engineer | NovaStack Technologies, Kochi | Jun 2023 – Present

- Develop and maintain REST APIs using Python and FastAPI for internal and customer-facing applications.
- Designed PostgreSQL schemas and optimized SQL queries, reducing average response time for several high-traffic endpoints.
- Containerized backend services with Docker and worked with Redis for caching and background processing.
- Integrated payment, notification, and external business APIs and handled failures and retries.
- Wrote unit and integration tests using pytest and participated in code reviews through Git.

Junior Backend Developer | BrightLayer Solutions, Bengaluru | Jul 2022 – May 2023

- Built Python REST endpoints and worked with PostgreSQL databases for a SaaS application.
- Fixed backend bugs, added API validation, and collaborated with frontend developers on feature delivery.
- Used Git for version control and contributed to API documentation and testing.

PROJECTS

Inventory Management API | FastAPI, PostgreSQL, Redis, Docker

- Built a role-based inventory API with product, stock, and order management; added Redis caching and Docker-based local deployment.

Job Application Tracker | Python, FastAPI, PostgreSQL

- Built a REST API to manage applications, interview stages, notes, and reminders with PostgreSQL persistence and filtering.

Expense Analytics Service | Python, FastAPI, PostgreSQL

- Created an API for transaction ingestion and monthly expense summaries, including validation and SQL-based aggregation.

SKILLS

Languages: Python, SQL **Backend:** FastAPI, REST APIs **Database:** PostgreSQL **Tools:** Git, Docker, Redis, pytest

EDUCATION

B.Tech in Computer Science and Engineering | APJ Abdul Kalam Technological University | 2022

ADDITIONAL

Comfortable working in Agile teams, participating in code reviews, debugging production issues, and documenting APIs.
