PROFILE

Software engineer with 2.5 years of experience working on web applications and internal platforms. Strong background in Java, Spring Boot, SQL, and REST API development. Recently started working with Python and FastAPI while contributing to a service migration project.

EXPERIENCE

Software Engineer | Orbit Systems Pvt. Ltd., Bengaluru | Aug 2023 – Present

- Developed and maintained REST APIs using Java and Spring Boot for an internal order management platform.
- Worked with PostgreSQL for reporting queries, schema changes, and data fixes; most application services used MySQL.
- Contributed to a migration initiative where a small internal service was rewritten in Python and FastAPI.
- Worked with frontend developers and QA engineers to investigate defects and deliver features.
- Used Git, Docker, and GitHub Actions for source control and CI workflows.

Associate Software Engineer | BluePeak Digital, Kochi | Jul 2022 – Jul 2023

- Built backend features for a customer support application using Java, Spring Boot, and MySQL.
- Created REST endpoints, implemented validation, and wrote unit tests with JUnit.
- Participated in sprint planning, code reviews, and production issue investigation.

SELECTED PROJECT

Internal Order Processing Service | Python, FastAPI, PostgreSQL, Docker

- Built a small FastAPI service during an internal modernization project to expose order status and shipment information. Added PostgreSQL queries, request validation, Docker setup, and basic API tests.
- The service was used internally and was not a full replacement for the existing Spring Boot system.
