

KARTHIK MENON

DATA ENGINEER | BACKEND DEVELOPMENT

Chennai, India | karthik.menon.dev@example.com | +91 90000 31415 | github.com/karthikmenon-dev | linkedin.com/in/karthikmenon-dev

PROFESSIONAL SUMMARY

Data engineer with 3 years of experience building data pipelines, internal APIs and reporting services. Strong in Python, SQL and PostgreSQL, with professional experience using Airflow and AWS. Recently worked on FastAPI services around internal data products and is interested in moving further into backend engineering.

EXPERIENCE

Data Engineer | MarketPulse Analytics, Chennai | Jan 2024 – Present

- Develop Python-based data pipelines that collect information from internal systems and third-party APIs.
- Design PostgreSQL tables and write complex SQL queries for reporting, reconciliation and operational dashboards.
- Built a FastAPI service that exposes selected analytical datasets to internal applications and handles filtering and pagination.
- Created scheduled workflows with Airflow and added validation checks to identify missing or inconsistent records.
- Worked with AWS S3 and basic EC2-based deployment environments for internal data services.
- Investigate data issues with product and operations teams and document fixes for recurring problems.

Junior Data Analyst | InsightWorks Solutions, Coimbatore | Jul 2022 – Dec 2023

- Prepared SQL queries and reports for sales and operations teams using PostgreSQL and Excel.
- Automated recurring data-cleaning tasks with Python, reducing manual spreadsheet work for weekly reports.
- Worked with analysts and developers to verify data used by customer-facing dashboards.

SELECTED PROJECTS

Data Quality Monitoring API | Python · FastAPI · PostgreSQL

- Built an internal API that runs configurable checks against daily datasets and returns failed records, summary counts and validation history.

Retail Sales Pipeline | Python · Airflow · PostgreSQL · AWS S3

- Created a scheduled pipeline that loads CSV sales files, validates records, transforms them and stores reporting tables in PostgreSQL.

Developer Metrics Dashboard | Python · SQL · React

- Created a small internal dashboard for deployment and issue metrics using a Python API layer and SQL-based aggregation.

TECHNICAL SKILLS

Languages: Python, SQL **Backend:** FastAPI, REST APIs **Data:** PostgreSQL, Pandas, Airflow **Cloud:** AWS S3, EC2 **Tools:** Git, Docker, Linux, Postman

EDUCATION

B.Tech in Information Technology | Anna University | 2022

CERTIFICATIONS & LEARNING

- AWS Certified Cloud Practitioner | 2024
- Currently learning backend system design, FastAPI patterns and automated API testing.

ADDITIONAL

English (professional) | Tamil (native) | Malayalam (conversational) | Open to backend, platform and data-focused engineering roles.
