

DANIEL THOMAS

FRONTEND ENGINEER | WEB APPLICATIONS | OPEN TO FULL-STACK ROLES

Bengaluru, India • daniel.thomas.dev@example.com • +91 90000 41826 • github.com/danielthomas-dev • linkedin.com/in/danielthomas-dev

SUMMARY

Frontend engineer with 3 years of experience building web applications for B2B products. Strong in React and TypeScript with regular collaboration on REST APIs, authentication and database-backed features. Has worked with Python and FastAPI on internal tools, but most production development has been frontend-focused.

EXPERIENCE

Frontend Engineer | ProductLane Technologies | Bengaluru | Feb 2024 – Present

- Build React and TypeScript features for a customer operations platform used by support and account teams.
- Work with backend engineers to define API payloads, handle loading and error states, and integrate REST endpoints.
- Implemented authentication flows, role-based navigation, file uploads and searchable tables for large datasets.
- Worked with PostgreSQL-backed APIs to troubleshoot data issues and reproduce customer-facing bugs.
- Created reusable components and improved frontend test coverage for high-use workflows.

Software Developer | WebCraft Studio | Kochi | Jun 2022 – Jan 2024

- Delivered responsive websites and internal dashboards using React, JavaScript, HTML and CSS.
- Connected frontend applications to Django REST APIs and worked with developers on request and response contracts.
- Maintained small Python scripts used for data import and content migration.

PROJECT HIGHLIGHTS

Developer Portfolio CMS | React · TypeScript · FastAPI · PostgreSQL

Built a small CMS for managing portfolio projects, blog posts and contact messages. Implemented a FastAPI backend, PostgreSQL storage and a React admin interface.

Team Expense App | React · Node.js · PostgreSQL

Created a group expense application with authentication, shared expenses, settlement calculations and exportable monthly summaries.

Customer Feedback Dashboard | React · Python

Built a dashboard that collects customer feedback from a REST endpoint and provides filtering, search and basic trend summaries.

TECHNICAL SKILLS

Frontend	React, TypeScript, JavaScript, HTML5, CSS3
Backend	REST APIs, FastAPI (project), Django REST Framework (integration)
Database	PostgreSQL, MySQL (basic)
Tools	Git, GitHub, Docker (basic), Postman, Vite

EDUCATION

B.Tech in Computer Science and Engineering | Kerala Technological University | 2022

OTHER EXPERIENCE

Volunteer mentor for a local student coding group, helping beginners with Git, web development basics and small project reviews.

NOTE

Most professional experience is in frontend engineering. Backend exposure has come through API integration, internal tools and personal projects.
