PROJECTS

Commerce - Online Auction Platform

GitHub: <https://github.com/abhinraj23/commerce/tree/main>

- Built a full-stack auction platform with user authentication and session management.
- Implemented listings, bidding, comments, categories, and watchlist using Django ORM.
- Designed relational database models with ForeignKey and Many-to-Many relationships.
- Developed 5+ core modules including authentication, listings, bidding, comments, and watchlist.
- Designed 6+ relational database models using Django ORM.
- Technologies / Tools Used: Django, Python, SQLite, HTML, CSS

Candidate Research Agent

GitHub: <https://github.com/abhinraj23/ai-learning-journal/tree/main/month-2/week-6>

- Built an AI agent that analyzes resumes and evaluates candidate suitability.
- Verified technical credibility using GitHub API and structured AI workflows.
- Generated structured candidate assessments based on job requirements.
- Integrated 4+ AI services/APIs including LangGraph, LangChain, GitHub API, and Groq API.
- Technologies / Tools Used: LangGraph, LangChain, Pydantic, GitHub API

AI Content Generation Pipeline

GitHub: <https://github.com/abhinraj23/ai-learning-journal/tree/main/month-2/week-7>

- Developed a multi-agent workflow for brand research, content creation, and review.
- Developed a workflow covering 4 stages: research, generation, review, and refinement.
- Generated platform-specific content for 3 platforms: LinkedIn, X, and email campaigns.
- Applied automated quality checks to improve consistency before final output.
- Technologies / Tools Used: CrewAI, Gemini API

AI Job Description Generator

GitHub: <https://github.com/abhinraj23/ai-learning-journal/tree/main/month-1/week-3>

- Built a two-stage AI pipeline that analyzes live job postings and generates job descriptions.
- Used structured validation with Pydantic to improve output consistency.
- Implemented the system in both raw Python and LangChain to understand framework internals.
- Technologies / Tools Used: LangChain, Pydantic, SerpAPI

AI Recruitment Assistant

GitHub: <https://github.com/abhinraj23/ai-learning-journal/tree/main/month-1/week-1>

- Developed a conversational recruitment assistant with persistent conversation memory.
- Implemented JSON-based session storage and error handling for reliable interactions.
- Automated candidate inquiries using AI-driven responses.
- Technologies / Tools Used: Python, Groq API

SKILLS

- Frameworks & Libraries: LangGraph, LangChain, Django, CrewAI, FastAPI, React
- Programming Languages: HTML5, CSS3, Python, JavaScript, SQL, C
- Tools & Platforms: REST APIs, Groq API, GitHub API, SerpAPI, Git, n8n, GitHub
- Databases: SQLite
- Marketing Skills: Digital Marketing (Basics), Email Marketing (Basics), Outbound Sales, Appointment Setting, Lead Qualification & Generation, Copywriting
- Soft Skills: Communication, Teamwork, Problem Solving, Critical Thinking, Adaptability, Decision Making
- Languages: English

EDUCATION

B-Tech - Electronics and Communication Engineering

2022 - 2026

Vidya Academy of Science and Technology, Thrissur, Kerala
